Career Objective

Highly motivated third-year Computer Science student seeking the **Delivery, Testing, and Support (DTS) internship** at Infosys Finacle. Equipped with a strong foundation in **Python, OOP principles, DBMS**, and a keen eye for quality assurance, eager to contribute to the robust implementation and delivery of core banking solutions.

Education

Degree	Institution	Year of Graduation	CGPA / Percentage
B.Tech/B.E. in Computer Science and Engineering (CSE)	Malnad College Of Engineering	2027	[8.3]
Class XII	Brilliant PU College	2023	[95.4%]

Skills & Technologies

- Programming Languages:** Python (Basic-Intermediate), SQL (Basic)
- Core Concepts:** Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS), Software Testing Life Cycle (STLC)
- Tools:** [Mention any simple tools like MS Excel, basic Linux commands, or version control like Git (even if you just know the basics)]
- Domain Interest:** FinTech, Core Banking Systems, Quality Assurance (QA)

Projects

 **Automated Transaction Data Validation Tool** (DTS Focus: QA, OOP)

 **Customer Account Management Tool** (DTS Focus: SQL, DBMS)

 **Simple Command-Line Calculator** (Confidence Builder: Functions, Logic)

 **To-Do List** (classic, high-value project **Lists, Functions, and User Input**)
